

Quick Response

Funding for Emergency Repairs

Bruce Golden

WPCAMR

Quick Response Program

in a nutshell

- Funding for emergency repairs for Growing Greener type projects, e.g. treatment systems
- Relatively easy process
- Relatively quick payment
- wpcamr.org for details

- 3 Growing Greener grants to WPCAMR so far totaling \$680k
- WPCAMR administers program in cooperation with DEP, nearly \$450k to date since 2006

QR Application Process

- Call local DEP Watershed Manager, describe problem, arrange site visit.
- At site visit, devise a repair plan
- Get contractor estimates for repair work
- Fill out application form. (2 pgs)
 - Contact info
 - System particulars
 - Short narratives on:
 - system description,
 - nature of problem and proposed repairs,
 - Justification for need
 - Costs and proposed contractor info
 - Landowner agreement
- Send Application Form to Watershed Manger

Execution of Repair Project

- Receive formal notification of acceptance / rejection of project (by WPCAMR).
- 90 days given for repair work
- Keep WM in the loop during work
- Request inspection of final repairs by WM and provide invoices.
- Following successful inspection, wait for payment (usually within 30 days)
